### Graduate Seminars: Helping others grow.

**Leadership development requires continued engagement of an empowered, educated, and resilient workforce where new leadership ideas are explored and cultivated.**

Approximately one year after graduation from one of our leadership programs, our graduate seminars allow participants to:

- **Reconnect** – Maintain an existing network of leadership program graduates
- **Renew** – Continue personal growth and development in a supportive space
- **Recognize** - Their role in serving others with their leadership skills

During the workshop participants will:

- Connect with each other by discussing their leadership successes and challenges since their graduation
- Exploring ideas for overcoming leadership challenges
- Gain more clarity on their role as a leader within their context
- Create an action plan for “paying it forward” to serve others with their leadership skills
- Build listening and peer mentoring skills to empower their colleagues in their work and leadership skills

**DURATION:** Two to three days

**PARTICIPANTS:** Graduates of “Insightful Leader” and “Being a Leader” Programs

**SCHEDULE:** Contact us to schedule a Graduate Seminar
